Education

BFA, Design & Technology at *Parsons School of Design*, New York City. (2016 - 2020)

A hybrid program that taught visual design, code & human computer interaction.

Certifications

Startup Studio at *Cornell Tech*, New York City. (2018 - 2019)

A year-long course where I worked with engineers & managers from Cornell Tech to build & pitch products to companies & VCs.

Work Experience

Product Designer at *Feather Systems*, Remote. (2021 - 2022)

Successfully designed & developed branding, a website & an app interface that enabled the company to raise a \$200,000 pre-seed round of investment & launch an alpha product.

Lead User Interface Designer at *Birdwell Solutions*, Remote. (Aug - Nov 2020)

Created effective branding & user interfaces that helped clients go to market & rapidly acquire customers.

Creative Technology Intern at *chlorophyll consultancy*, Mumbai. (Jun - Aug 2018)

Illustrated merchandise and developed an AR application for the company's Innovation lab branch that helped the lab's project procure funding.

User Interface Design Intern at *LRN*, Mumbai. (Jun - Aug 2017)

Successfully transitioned the company's branding & design language to a more modern style using 'Material Design' & other design frameworks.

Achievements

Best Design Hack at *Hack Princeton* for project Bulbul. (2019)

Won the 'Best Design' prize out of 182 participants in a hackathon at Princeton University by working with a colleague to develop an app that interactively generates music.

Graduated Magna cum laude from *Parsons School of Design*. (2020)

Graduated with an overall GPA of 3.80. Appeared on the Dean's list multiple times.

Skills

Adobe Creative Suite, Figma, UX research, Iterative Prototyping, JavaScript, HTML/CSS, Svelte, Illustration.
